Ogden, Utah 84404

Subject: Need for Amendment, Great Salt Lake Minerals, GSL Mine, M0570002, Weber County, Utah

Dear Mr. Beaumont:

The Division has reviewed a public notice issued by the Army Corps of Engineers concerning certain changes being made to Great Salt Lake Minerals Corporation's operations and facilities. It appears these changes would constitute an amendment or revision to the mine plan, and the Division needs to review and approve this proposal before it may be implemented, including adjustments to the reclamation surety.

Please submit the proposal in a form that it can be inserted in your current mine plan. Maps need to show both current and proposed facilities, and text should be redline/strikeout to highlight changes being made. We ask that you use form MR-REV, a copy of which is attached.

If you have questions about this letter, please contact me at 801-538-5258 or Paul Baker at 801-538-5261.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
